

ATOMOS

# STORYBOARD

AUGUST 2025

---

---

Hi John, check out what's new this month!

In this edition of Storyboard, learn more about the all-new **Ninja TX** monitor-recorder, and take advantage of our latest offer - save 20% on Atomos TX-RX when you buy a Sumo!

We've also made it easier than ever to pair your Atomos connected device to your **ATOMOSphere** account using a QR code. Learn more by watching the setup guide below.

This month's featured creators include Emmy-winning cinematographer **Ben Staley**, who shares how *Shogun* and *Shinobi II* help him tell unforgettable stories in tough conditions.

Plus, filmmaker **Ray Roberts** uses the Shinobi monitor to bring commercial productions and community-led projects to life.

And finally, a team of young filmmakers put the **Shinobi GO** to the test in a fast-paced, car-mounted shoot for *Professional Photo Magazine*. Meanwhile, in *Definition Magazine's Test Space*, cinematographer Joshua Ighodaro pushed the **Sumo 19SE** through a demanding LUT and lens shootout for an upcoming feature film.

**NINJATX**

**NEW PRODUCT**

# Ninja TX is here! And it's our most powerful monitor-recorder yet.

## Versatile workflows

With 12G-SDI and HDMI 2.0, CFexpress and USB-C recording, and built-in Wi-Fi and AirGlu™ timecode, Ninja TX is ready for everything from high-frame-rate HD to full 8K productions.

## Brighter and faster

The 1500 nit HDR touchscreen is 50% brighter than previous models, while the re-engineered design delivers a cooler, quieter, and faster experience. All major codecs - ProRes, ProRes RAW, DNx and H.265/H.264 are pre-activated, so you can start shooting straight away.

## Trusted tools and cloud access

Trusted tools like EL Zone™, waveform, vectorscope, and focus peaking help fine-tune every frame with confidence. And with automatic cloud uploads to [ATOMOSphere](#), Frame.io, and Dropbox, your workflow is ready to go - right out of the box.

Ninja TX ships end of August, priced at: USD \$999 / EUR €999 / GBP £835 / AUD \$1625 (prices exclude local taxes and delivery).

## FEATURE

# Shinobi GO powers through a car-mounted shoot

A team of young filmmakers put **Shinobi GO** to the test during a dynamic, car-mounted shoot for *Professional Photo Magazine*. Its compact build and ultra-responsive touchscreen made it the ideal tool for on-the-fly monitoring and colour grading in fast-moving setups. Read the full review to see how the Shinobi GO performed.

## FEATURE

### Sumo steps up in pro shoot

The **Sumo 19SE** was put through its paces in *Definition Magazine's* Test Space, where cinematographer Joshua Ighodaro used it during an LUT and lens shootout for an upcoming feature film. In controlled environments and challenging daylight conditions, Sumo demonstrated its reliability and flexibility, earning recognition as "a worthy upgrade and a serious tool for professional use."
